

# NEED COUNSELING?

CentrePointe is available to provide hope through professional and confidential help!

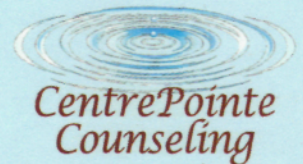

Our fully licensed staff is available to provide counseling for a wide range of Mental, Behavioral and Emotional Disorders.

To arrange a consultation, call 1-800-491-5369, ext 120.

- Our staff will direct clients to one of our convenient locations based on geography, schedule compatibility/availability, area of specialty and insurance provider.
- If health insurance will not cover the session cost, a subsidized fee may be available.
- Churches and individuals can assist those in need of help by donating towards the client fees.
- Some counselors have waiting lists, but give priority access to persons referred from CentrePointe's Partnership Churches. Contact us for more info regarding this program.

Ministry leaders, friends and family are encouraged to refer individuals for counseling when:

- ✓ The problems are beyond your expertise and the situation requires more time than you can offer.
- ✓ There is a mental health issue, rather than spiritual issue. However, faith will be valued in the process to promote healing.
- ✓ The individual has faced an incident that is traumatic or is legal in nature.
- ✓ If the candidate may cause self-harm, refer them IMMEDIATELY to an emergency room for assessment and treatment.
